

Easter Cross Craft

You will need:

- Cross printout
- Black piece of paper
- Colouring pens
- Glue
- Scissors

Steps:

1. Colour in cross
2. Trace around cross onto black paper. Cut 1cm around the cross outline so that the black paper will form a thick border around the cross.
3. Cut out inside of the black cross. Again, leave 1/2cm gap between the line and where you cut, so that the cross can glue onto the black paper.
4. Glue cross onto black paper cut out
5. Blue tack onto your glass window

While colouring your cross, look at the different colours and what they represent. Talk about it with your family.
