

Easter Egg Craft

Preparation

1. Select 2 or 3 potatoes roughly in an oval shape & cut in half lengthways
2. Using a knife, cut patterns or stripes into the flesh of the potato
3. Pour some water based paint into a tray or dish.

Have fun!

4. Kids dip potatoes into the paint, and stamp onto the sheet provided to create your own easter egg artwork
5. You might want to use a paint brush to paint the eggs different colours to create something a bit different?

Use this time to talk about Easter, and how we like to eat Easter Eggs, but Jesus is the reason why we celebrate Easter! Because He took away our sins, we can have a new heart, and live free.

For God so loved.....
