

T4, W3 Primary Craft – Cross

What you will need:

- 2 pipe cleaners
- Beads
- Craft Glue

What to do:

1. Fold first pipe cleaner to create a loop at the top, then start threading beads
2. Once about 1/3 of the way down, twist the second pipe cleaner around the first pipe cleaner, to create the cross.
3. Thread beads onto the 'cross section' of the cross, and glue the last beads into place
4. Continue threading beads onto the first pipe cleaner all the way to the bottom, and glue the last bead into place.
